Datasheet for C304-0050**Rabbit "C" (5-6 Lbs.) Complement (Fresh Frozen)****Overview**

Description:	Rabbit "C" (5-6 lbs.) Complement (Fresh Frozen) - C304-0050
Item No.:	C304-0050
Size:	50 mL
Origin:	Rabbit

Product Details

Background:	Special processing techniques are used to yield products with high complement activity and low background cytotoxicity. Rabbit "C" Complement is suitable for CFT and SRH.
Synonyms:	Complement system, tissue macrophages, blood monocytes, protease C3-convertase, mannose-binding lectin pathway, cascade cleavage and activation events, recruit inflammatory cells, anaphylatoxin, Serum Bactericidal Assay (SBA), Multiplex opsonophagocytosis assay (MOPA), cytotoxicity and cell depletion assay
Species of Origin:	Rabbit

Target Details

Purity/Specificity:	Rabbit "C" (5-6 lbs.) Complement was prepared by removal of fibrinogen through clot formation under proper temperature conditions. Rabbit "C" Complement was then purified through temperature-controlled centrifugation and filtration. Assay by immunoelectrophoresis resulted in multiple precipitin arcs against anti-Rabbit Serum.
----------------------------	---

Application Details

Application Note:	pH: normal
	Immunoelectrophoresis: normal
	Hemoglobin: normal
	IgG Concentration: normal

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

Tissue Data

Tissue Type: Complement

Sex: Mixed

Strain: Rabbit - New Zealand White

Formulation

Physical State: Fresh Frozen

Concentration: 85 mg/mL by Refractometry

Buffer: None

Sterility: Non-sterile

Preservative: None

Stabilizer: None

Shipping & Handling

Shipping Condition: Dry Ice

Storage Condition: Store vial at -70° C prior to opening. Aliquot contents and freeze at -70° C or below. Use aseptic technique to maintain sterility when opening product. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. **COMPLEMENT IS A TEMPERATURE SENSITIVE PRODUCT. IMPROPER STORAGE WILL INACTIVATE COMPLEMENT ACTIVITY.**

Expiration: Expiration date is one (1) year from date of receipt.

Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale. Suggested uses of our products are not recommendations to use our products in violation of any patent or as a license under any patent of Rockland Immunochemicals, Inc. If you require a commercial license to use this material and do not have one, then return this material, unopened to: Rockland Inc., P.O. BOX 5199, Limerick, Pennsylvania, USA.
