Datasheet for D614-0100**Freund's Complete Adjuvant****Overview**

Description:	Freund's Complete Adjuvant - D614-0100
Item No.:	D614-0100
Size:	100 mL
Applications:	Other

Product Details

Background:	Special formulation of adjuvant containing paraffin oil, surfactant and heat-killed <i>Mycobacterium butyricum</i> .
Synonyms:	Freund's Complete Adjuvant, CFA

Application Details

Suggested Applications:	Other (Based on references)
Application Note:	Freund's adjuvant may be used to form water-in-oil emulsions with antigens for the injection of immunogens for antibody production. Proper emulsion formation is essential and should be tested by observing a drop of the emulsion on the surface of water which should 'bead and not disperse. Antigens properly emulsified stimulate a strong and long-lasting immune response due to the slow release of antigen into the host's system.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

Formulation

Physical State:	Liquid
Buffer:	None
Sterility:	Sterile
Preservative:	None
Stabilizer:	None

Shipping & Handling

Shipping Condition: Ambient

Storage Condition: Store vial at 4° C prior to opening. DO NOT FREEZE.

Expiration: Expiration date is one (1) year from date of receipt.
