Datasheet for DAB-10

DAB Membrane Peroxidase Substrate (50X)**Overview**

Description:	DAB Membrane Peroxidase Substrate (50X) - DAB-10
Item No.:	DAB-10
Size:	10 mL
Applications:	IHC, WB

Product Details

Background:	DAB Membrane Peroxidase Substrate (50x) is a benzidine derivative that is oxidized by hydrogen peroxide in the presence of hemoglobin, yielding a dark-brown color of solution. This oxidation can be utilized for tissue samples by first preparing them with hydrogen peroxide. DAB Membrane Peroxidase Substrate (50x) is ideal for researchers in Immunology and Microbiology research.
Synonyms:	3,3',4,4'-Tetraamino-diphenyl; 3,3'-Diaminobenzidine, Dab Membrane Peroxidase Substrate, Dab Membrane HRP Substrate

Application Details

Suggested Applications:	IHC, WB (Based on references)
Application Note:	DAB Membrane Peroxidase Substrate (50x) is designed to be diluted with Rockland part number DAB-B50
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
IHC:	1X
WB:	1X

Formulation

Physical State:	Liquid - brown
Concentration:	50x

Stabilizer: Proprietary 50X buffer with solvents and stabilizers

Shipping & Handling

Shipping Condition: Ambient

Storage Condition: Store container at 4° C prior to opening. Protect from moisture and light. No special shipping conditions or precautions are required.

Expiration: Expiration date is one (1) year from date of receipt.

Western Blot

Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) western blot staining with anti-SARS-CoV-2 Receptor Binding Domain (RBD) monoclonal antibody for detecting S1 protein (MAB10540, RnD System) (8% gel); (A): western blot staining with anti-SARS-CoV-2 S2 monoclonal antibody (MAB10557, RnD System) (8% gel); (B): western blot staining with rabbit antibody serum (12% gel); (C): western blot staining with human convalescent serum from the COVID-19 infection (8% gel); (D): (S) labeled for spike protein, (N) labeled for nucleoprotein protein, (M) labeled for membrane protein, (E) labeled for envelope protein.

Western blot was performed by using antibody serum from an immunized rabbit with visualization and with HRP-conjugated anti-rabbit IgG polyclonal antibody with 1:10.000 concentration (Cat. no. 611-103-122, Rockland, USA) and DAB (Rockland, USA).

Figure 5. PMID: 34621509.
