Overview

M1324R Microcentrifuge (Refrigerated optional), with speeds up to 15,800 rpm(23444×g), is ideal for life science research and production in industries such as biology, chemistry, materials science, bioengineering, and biopharmaceuticals.

The microcentrifuge enables your centrifugation simple by providing stable operation at -10°C~40°C even at maximum speed. Featured with 12 user-defined programs provide quick and convenient setting and parameter use. Small footprint and low noise, touch screen interaction can be called by one click. All the functions are designed according to your needs.
