# CCL28 (m): 293T Lysate: sc-119084

## BACKGROUND

CCL28 functions in chemotactic activity for resting CD4, CD8 T cells and eosinophils. CCL28, a secreted protein, binds to CCR3 and CCR10 (known previously as orphan G protein-coupled receptor GPR2) and induces calcium mobilization in a dose-dependent manner. CCL28 is preferentially expressed by epithelial cells of diverse tissues including normal and pathological colon, salivary gland, mammary gland, trachea and rectum. CCL28 belongs to the subfamily of small cytokine CC genes that encode proteins having two adjacent cysteines. Several alternative splice variants may exist.

## CHROMOSOMAL LOCATION

Genetic locus: Ccl28 (mouse) mapping to 13.

## PRODUCT

CCL28 (m): 293T Lysate represents a lysate of mouse CCL28 transfected 293T cells and is provided as 100 µg protein in 200 µl SDS-PAGE buffer.

## STORAGE

Store at -20° C. Repeated freezing and thawing should be minimized. Sample vial should be boiled once prior to use. Non-hazardous. No MSDS required.

## PROTOCOLS

See our web site at [www.scbt.com](http://www.scbt.com) for detailed protocols and support products.

## APPLICATIONS

CCL28 (m): 293T Lysate is suitable as a Western Blotting positive control for mouse reactive CCL28 antibodies. Recommended use: 10-20 µl per lane.

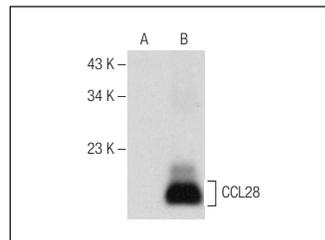

Control 293T Lysate: sc-117752 is available as a Western Blotting negative control lysate derived from non-transfected 293T cells.

CCL28 (G-2): sc-376654 is recommended as a positive control antibody for Western Blot analysis of enhanced mouse CCL28 expression in CCL28 transfected 293T cells (starting dilution 1:100, dilution range 1:100-1:1,000).

## RECOMMENDED SUPPORT REAGENTS

To ensure optimal results, the following support reagents are recommended:  
 1) Western Blotting: use m-IgGκ BP-HRP: sc-516102 or m-IgGκ BP-HRP (Cruz Marker): sc-516102-CM (dilution range: 1:1000-1:10000), Cruz Marker™ Molecular Weight Standards: sc-2035, UltraCruz® Blocking Reagent: sc-516214 and Western Blotting Luminol Reagent: sc-2048.

## DATA

CCL28 (G-2): sc-376654. Western blot analysis of CCL28 expression in non-transfected: sc-117752 (A) and mouse CCL28 transfected: sc-119084 (B) 293T whole cell lysates

## RESEARCH USE

For research use only, not for use in diagnostic procedures.
