# NCAM (m): 293T Lysate: sc-121950

#### **BACKGROUND**

Neural cell adhesion molecules (NCAMs) are a family of closely related cell surface glycoproteins involved in cell to cell interactions during growth and thought to play an important role in embryogenesis and development. The expression of these molecules is widespread in all three germ layers during embryogenesis, but is more restrictive in adult tissues. NCAM expression is observed in a variety of human tumors including neuroblastomas, rhabdomyosarcomas, Wilms' tumor, Ewing's sarcoma and some primitive myeloid malignancies. Multiple isoforms of NCAM have been reported in both mouse and human brain tissue. In humans, NCAMs arise from differential splicing and use of alternative polyadenylation sites of a single gene mapping to 11q23.2.

#### **STORAGE**

Store at -20 $^{\circ}$  C. Repeated freezing and thawing should be minimized. Sample vial should be boiled once prior to use. Non-hazardous. No MSDS required.

#### **PROTOCOLS**

See our web site at www.scbt.com for detailed protocols and support products.

#### **CHROMOSOMAL LOCATION**

Genetic locus: Ncam1 (mouse) mapping to 9 A5.3.

#### **PRODUCT**

NCAM (m): 293T Lysate represents a lysate of mouse NCAM transfected 293T cells and is provided as 100 µg protein in 200 µl SDS-PAGE buffer.

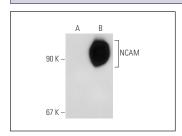

#### **APPLICATIONS**

NCAM (m): 293T Lysate is suitable as a Western Blotting positive control for mouse reactive NCAM antibodies. Recommended use: 10-20 µl per lane.

Control 293T Lysate: sc-117752 is available as a Western Blotting negative control lysate derived from non-transfected 293T cells.

NCAM (H28-123): sc-59934 is recommended as a positive control antibody for Western Blot analysis of enhanced mouse NCAM expression in NCAM transfected 293T cells (starting dilution 1:100, dilution range 1:100-1:1,000).

#### **DATA**

NCAM (H28-123): sc-59934. Western blot analysis of NCAM expression in non-transfected: sc-117752 (**A**) and mouse NCAM transfected: sc-121950 (**B**) 293T whole cell lysates.

#### **RESEARCH USE**

For research use only, not for use in diagnostic procedures.
