BCAM (m): 293T Lysate: sc-126494

BACKGROUND

Cell adhesion molecules (CAMs) influence cell growth, differentiation, embryogenesis, immune response and cancer metastasis by networking information from the extracellular matrix to the cell. Regulation of neuronal synaptic adhesion by CAMs has proven important for learning and memory. Proper embryonic morphogenic development is also heavily dependent on the regulation of cell adhesion molecules. Mutation of CAM genes has been linked to several forms of cancer, affecting tumor growth and metastasis. Lutheran blood group glycoprotein, also designated BCAM cell surface glycoprotein or auberger B antigen, plays a role in intracellular signaling. It is a widely expressed protein but the highest level of expression is in pancreas tissue.

CHROMOSOMAL LOCATION

Genetic locus: Lu (mouse) mapping to 7 A3.

PRODUCT

BCAM (m): 293T Lysate represents a lysate of mouse BCAM transfected 293T cells and is provided as 100 µg protein in 200 µl SDS-PAGE buffer.

STORAGE

Store at -20° C. Repeated freezing and thawing should be minimized. Sample vial should be boiled once prior to use. Non-hazardous. No MSDS required.

PROTOCOLS

See our web site at www.scbt.com for detailed protocols and support products.

APPLICATIONS

BCAM (m): 293T Lysate is suitable as a Western Blotting positive control for mouse reactive BCAM antibodies. Recommended use: 10-20 µl per lane.

Control 293T Lysate: sc-117752 is available as a Western Blotting negative control lysate derived from non-transfected 293T cells.

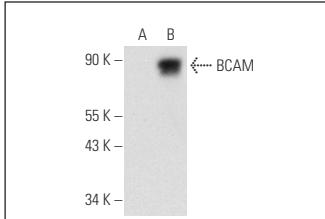

BCAM (A-7): sc-514556 is recommended as a positive control antibody for Western Blot analysis of enhanced mouse BCAM expression in BCAM transfected 293T cells (starting dilution 1:100, dilution range 1:100-1:1,000).

RECOMMENDED SUPPORT REAGENTS

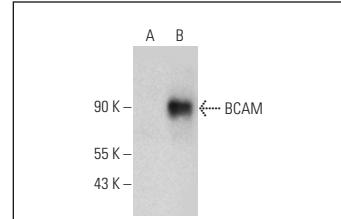

To ensure optimal results, the following support reagents are recommended:

1) Western Blotting: use m-IgG_κ BP-HRP: sc-516102 or m-IgG_κ BP-HRP (Cruz Marker): sc-516102-CM (dilution range: 1:1000-1:10000), Cruz Marker™ Molecular Weight Standards: sc-2035, UltraCruz® Blocking Reagent: sc-516214 and Western Blotting Luminol Reagent: sc-2048.

DATA

BCAM (A-7): sc-514556. Western blot analysis of BCAM expression in non-transfected: sc-117752 (**A**) and mouse BCAM transfected: sc-126494 (**B**) 293T whole cell lysates.

BCAM (A-4): sc-514758. Western blot analysis of BCAM expression in non-transfected: sc-117752 (**A**) and mouse BCAM transfected: sc-126494 (**B**) 293T whole cell lysates.

RESEARCH USE

For research use only, not for use in diagnostic procedures.
