elf3K (m): 293T Lysate: sc-126780

BACKGROUND

elf3K (eukaryotic translation initiation factor 3 subunit K, muscle-specific gene M9 protein) is a widely expressed translation initiation factor that belongs to the elf3 subunit K family. Translation initiation factor 3 (elf3) is a multi-subunit complex containing at least 12 subunits. elf3 binds to the 40S ribosomal subunit, promotes the binding of methionyl-tRNA_f and mRNA, and interacts with several other initiation factors to form the 40S initiation complex. elf3K is the smallest subunit of elf3 and it interacts with several other subunits of elf3 and the 40S ribosomal subunit. elf3K is conserved among high eukaryotes, including mammals, insects and plants, and it is ubiquitously expressed in human tissues. elf3K is distributed both in nucleus and cytoplasm and co-localizes with cyclin D3, a regulatory subunit of cyclin-dependent kinase 4 (Cdk4).

CHROMOSOMAL LOCATION

Genetic locus: Eif3k (mouse) mapping to 7 A3.

PRODUCT

elf3K (m): 293T Lysate represents a lysate of mouse elf3K transfected 293T cells and is provided as 100 µg protein in 200 µl SDS-PAGE buffer.

STORAGE

Store at -20° C. Repeated freezing and thawing should be minimized. Sample vial should be boiled once prior to use. Non-hazardous. No MSDS required.

PROTOCOLS

See our web site at www.scbt.com for detailed protocols and support products.

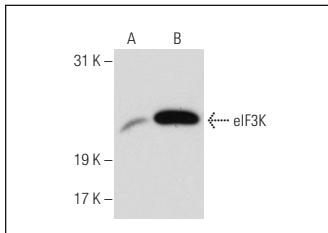

APPLICATIONS

elf3K (m): 293T Lysate is suitable as a Western Blotting positive control for mouse reactive elf3K antibodies. Recommended use: 10-20 µl per lane.

Control 293T Lysate: sc-117752 is available as a Western Blotting negative control lysate derived from non-transfected 293T cells.

elf3K (2313C2a): sc-81262 is recommended as a positive control antibody for Western Blot analysis of enhanced mouse elf3K expression in elf3K transfected 293T cells (starting dilution 1:100, dilution range 1:100-1:1,000).

DATA

elf3K (2313C2a): sc-81262. Western blot analysis of elf3K expression in non-transfected: sc-117752 (**A**) and mouse elf3K transfected: sc-126780 (**B**) 293T whole cell lysates.

RESEARCH USE

For research use only, not for use in diagnostic procedures.
