Mouse anti-TIMP-1, clone 2A5 (Monoclonal)

Clone no. 2A5

MONOSAN

Additional info

This monoclonal antibody binds to human TIMP-1. Reactivity in other species has not been determined. The 11-mer peptide used for the immunization differs on at least 3 amino acids with the sequence of TIMP-1 of rat, mouse, and rabbit. Therefore it is not expected to be effective in these species as well. The antibody was tested for cross-reactivity with TIMP-2 and did not cross-react.
