## Specification Sheet

# Monoclonal Mouse Antibody to Human Prostatic Acid Phosphatase (PSAP)

<b>Catalog No.:</b>	A00041
<b>Immunogen:</b>	Prostatic acid phosphatase purified from human seminal plasma.
<b>Clone:</b>	PASE/4LJ.
<b>Isotype:</b>	IgG1.
<b>Format:</b>	This antibody has been pretitered and quality controlled to work on formalin-fixed paraffin-embedded as well as acetone fixed cryostat tissue sections. No further titration is required.
<b>Staining Protocol:</b>	We suggest an incubation period of 30-60 minutes at room temperature. However, depending upon the fixation conditions and the staining system employed, optimal incubation should be determined by the user.
<b>Specificity:</b>	This antibody is specific against PSAP. This antibody can be used to identify the prostatic origin of metastatic tumor, for example metastatic carcinoma in bone, rectum and lymph node.
<b>Storage:</b>	Store the antibody at 4-8°C. Do not use it beyond the expiration date stated on the label.
