## AS-2024

[Product Images](#)

---

## Short Description

---

These antibodies to lectins are produced by immunizing goats with pure lectins. Following conventional purification steps, specific antibody is isolated by affinity chromatography on lectin-agarose columns. This anti-lectin is supplied in solution. These highly purified specific antibodies provide excellent intermediate reagents for localizing lectin receptors in tissues and on cells or following lectin transport in neuronal tracing.
