Page 1/10

## **1** Identification

- · Product identifier
- · Trade name: COX Inhibitor Screening Assay Stannous Chloride
- · Article number: 460107
- CAS Number: 10025-69-1
- Application of the substance / the mixture This product is for research use - Not for human or veterinary diagnostic or therapeutic use.
- Details of the supplier of the safety data sheet
   Manufacturer/Supplier: Cayman Chemical Co.
   1180 E. Ellsworth Rd. Ann Arbor, MI 48108
- USA
- Information department: Product safety department
   Emergency telephone number: During normal opening times: +1 (734) 971-3335 US/CANADA: 800-424-9300 Outside US/CANADA: 703-741-5970

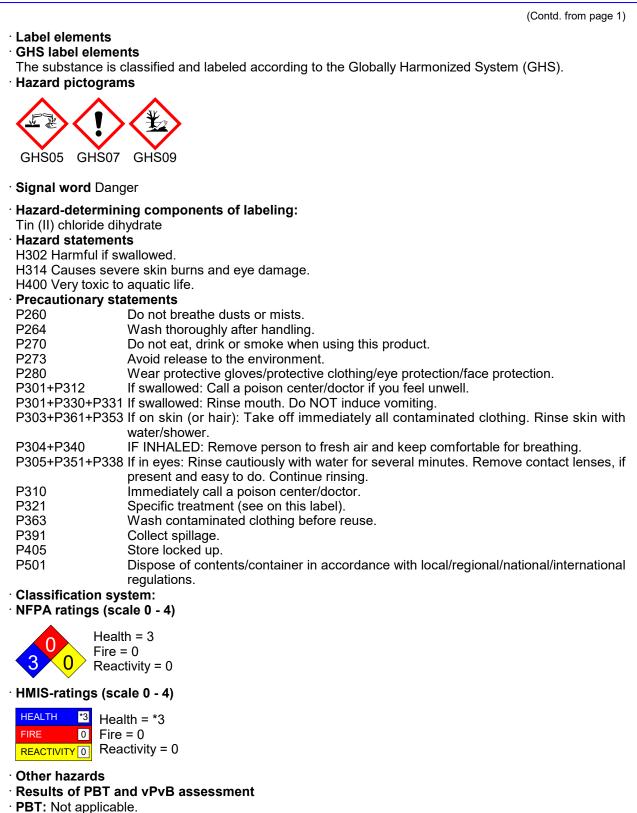

## 2 Hazard(s) identification

Printing date 04/25/2022

Revision date 04/25/2022

### Trade name: COX Inhibitor Screening Assay Stannous Chloride

(Contd. on page 3)

US

Printing date 04/25/2022

Revision date 04/25/2022

#### Trade name: COX Inhibitor Screening Assay Stannous Chloride

(Contd. from page 2)

· vPvB: Not applicable.

### **3 Composition/information on ingredients**

- · Chemical characterization: Substances
- · CAS No. Description
- 10025-69-1 Tin (II) chloride dihydrate

## 4 First-aid measures

- Description of first aid measures
- · General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- After inhalation: In case of unconsciousness place patient stably in side position for transportation.
- · After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: Immediately call a doctor.

Drink copious amounts of water and provide fresh air. Immediately call a doctor.

- Information for doctor:
- Most important symptoms and effects, both acute and delayed May cause anemia, cough, CNS depression, drowsiness, headache, heart damage, lassitude (weakness, exhaustion), liver damage, narcosis, reproductive effects, teratogenic effects. No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

## **5 Fire-fighting measures**

- Extinguishing media
- Suitable extinguishing agents:

Use fire fighting measures that suit the environment.

- A solid water stream may be inefficient.
- Special hazards arising from the substance or mixture

67-56-1During heating or in case of fire poisonous gases are produced.

- Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.

## 6 Accidental release measures

 Personal precautions, protective equipment and emergency procedures Mount respiratory protective device.
 Wear protective equipment. Keep unprotected persons away.
 Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers/ surface or ground water.

(Contd. on page 4)

Revision date 04/25/2022

rade name: COX Inhibitor Screening Assay Stannous Chloride	
<ul> <li>Methods and material for containment and cleaning up: Use neutralizing agent. Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.</li> <li>Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.</li> <li>Protective Action Criteria for Chemicals</li> </ul>	(Contd. from page 3)
· PAC-1:	
	11 mg/m³
PAC-2:	
	20 mg/m³
PAC-3:	
	760 mg/m³

## 7 Handling and storage

· Handling:

 Precautions for safe handling Thorough dedusting.
 Ensure good ventilation/exhaustion at the workplace.

· Information about protection against explosions and fires:

Keep respiratory protective device available.

- · Conditions for safe storage, including any incompatibilities
- Storage: Store in accordance with information listed on the product insert.
- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) No further relevant information available.

## 8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

· Components with limit values that require monitoring at the workplace:

10025-69-1 Tin (II)	chloride dihydrate
---------------------	--------------------

- PEL Long-term value: 2 mg/m<sup>3</sup> as Sn
- REL Long-term value: 2 mg/m<sup>3</sup> as Sn
- TLV Long-term value: 2\* mg/m<sup>3</sup> \*inhalable fraction, as Sn

• Additional information: The lists that were valid during the creation were used as basis.

#### Exposure controls

- Personal protective equipment:
- · General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

(Contd. on page 5)

<sup>-</sup> US

Printing date 04/25/2022

Revision date 04/25/2022

#### Trade name: COX Inhibitor Screening Assay Stannous Chloride

(Contd. from page 4)

Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes. Avoid contact with the eyes and skin.

Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

#### · Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

#### · Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

#### • Eye protection:

Tightly sealed goggles

## **9** Physical and chemical properties

- · Information on basic physical and chemical properties
- · General Information
- · Appearance:

Powder
According to product specification
Characteristic
Cl2Sn · 2H2O
225.6 g/mol
Not determined.
Not applicable.
Undetermined.
Undetermined.
Not applicable.
Product is not flammable.
Not determined.
Not determined.

### Trade name: COX Inhibitor Screening Assay Stannous Chloride

	(Contd. from page 5)
· Danger of explosion:	Product does not present an explosion hazard.
· Explosion limits:	
Lower:	Not determined.
Upper:	Not determined.
· Vapor pressure:	Not applicable.
· Density:	Not determined.
Relative density	Not determined.
· Vapor density	Not applicable.
<ul> <li>Evaporation rate</li> </ul>	Not applicable.
· Solubility in / Miscibility with	
Water:	Soluble.
· Partition coefficient (n-octanol/wa	ter): Not determined.
· Viscosity:	
Dynamic:	Not applicable.
Kinematic:	Not applicable.
VOC content:	0.00 %
Solids content:	100.0 %
· Other information	No further relevant information available.

## 10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- Conditions to avoid No further relevant information available.
- · **Incompatible materials:** No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

## **11 Toxicological information**

- · Information on toxicological effects
- · Acute toxicity:

· LD/LC50 values that are relevant for classification:

ATE (Acute Toxicity Estimate)

Oral LD50 500 mg/kg

### 10025-69-1 Tin (II) chloride dihydrate

Oral LD50 2,274.6 mg/kg (rat)

Intraperitoneal LD50 258.4 mg/kg (rat)

## Primary irritant effect:

- · on the skin: Caustic effect on skin and mucous membranes.
- <sup>.</sup> on the eye:

Strong caustic effect.

(Contd. on page 7)

Printing date 04/25/2022

Revision date 04/25/2022

(Contd. from page 6)

#### Trade name: COX Inhibitor Screening Assay Stannous Chloride

Strong irritant with the danger of severe eye injury.

• Sensitization: No sensitizing effects known.

• Additional toxicological information: Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach.

#### · Carcinogenic categories

· IARC (International Agency for Research on Cancer)

### Substance is not listed.

### · NTP (National Toxicology Program)

Substance is not listed.

- · OSHA-Ca (Occupational Safety & Health Administration)
- Substance is not listed.

## **12 Ecological information**

#### · Toxicity

- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- · Ecotoxical effects:
- · Remark: Very toxic for fish
- Additional ecological information:
- · General notes:

Water hazard class 2 (Self-assessment): hazardous for water

Do not allow product to reach ground water, water course or sewage system.

Must not reach bodies of water or drainage ditch undiluted or unneutralized.

Danger to drinking water if even small quantities leak into the ground. Very toxic for aquatic organisms

- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- Other adverse effects No further relevant information available.

## **13 Disposal considerations**

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- **Recommendation:** Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.
