Diironnonacarbonyl: sc-252721

MATERIAL SAFETY DATA SHEET

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name:	Diironnonacarbonyl
Product Number:	sc-252721

Supplier:	Santa Cruz Biotechnology, Inc.
	2145 Delaware Avenue
	Santa Cruz, CA 95060
	800.457.3801 or 831.457.3800
Emergency:	ChemWatch
	Within the US & Canada: 877-715-9305
	Outside the US & Canada: +800 2436 2255 (1-800-CHEMCALL) or call +613 9573 3112

2. HAZARDS IDENTIFICATION

Emergency Overview OSHA Hazards Target Organ Effect, Highly toxic by inhalation, Toxic by ingestion, Flammable solid Target Organs Kidney, Liver, Lungs GHS Classification Flammable solids (Category 2) Acute toxicity, Inhalation (Category 3)

Acute toxicity, Oral (Category 3) GHS Label elements, including precautionary statements

Pictogram

Signal word		Danger		
Hazard statement(s)				
H228		Flammable solid.		
H301 + H331		Toxic if swallowed or if inhaled		
Precautionary statement	(s)			
P210		Keep away from heat/sparks/open flames/hot surfaces No smoking.		
P261		Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray.		
P301 + P310		IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician.		
P311		Call a POISON CENTER or doctor/ physician.		
HMIS Classification				
Health hazard:		4		
Chronic Health H	lazard:	*		
Flammability:		1		
Physical hazard	SI	3		
NFPA Rating				
Health hazard:		4		
Fire:		1		
Reactivity Hazar	r d :	3		
Potential Health Effects				
Inhalation	May be fatal if inhaled. May cause respiratory tract irritation.			
Skin	May be harmful if absorbed through skin. May cause skin irritation.			
Eyes	May cause eye irritation.			
Ingestion	Toxic if swallowed.			

3. COMPOSITION/INFORMATION ON INGREDIENTS

Synonyms :	Enneacarbonyldiiron; Iron enneacarbonyl; Nonacarbonyldiiron					
Formula :	C9Fe2O9					
Molecular Weight :	363.78 g/mol					
CAS-No.		EC-No.	Index-No.	Concentration		
Tri-µ -carbonylhexaca	rbonyldiiron					
15321-51-4		239-359-5	-	-		

4. FIRST AID MEASURES

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area. **If inhaled**

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician. In case of skin contact

Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.

In case of eye contact

Flush eyes with water as a precaution.

If swallowed

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

5. FIREFIGHTING MEASURES

Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special protective equipment for firefighters

Wear self contained breathing apparatus for fire fighting if necessary.

Hazardous combustion products

Hazardous decomposition products formed under fire conditions - Carbon oxides, Iron oxides

Further information

Use water spray to cool unopened containers.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions

Wear respiratory protection. Avoid dust formation. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Avoid breathing dust.

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Methods and materials for containment and cleaning up

Sweep up and shovel. Contain spillage, and then collect with an electrically protected vacuum cleaner or by wetbrushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal. Contain spillage, pick up with an electrically protected vacuum cleaner or by wetbrushing and transfer to a container for disposal according to local regulations (see section 13).

7. HANDLING AND STORAGE

Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols.

Provide appropriate exhaust ventilation at places where dust is formed. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge.

Conditions for safe storage

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Heat sensitive. Air, light, and moisture sensitive. Handle and store under inert gas. Store at 4 °C.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Contains no substances with occupational exposure limit values.

Personal protective equipment

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Eye protection

Face shield and safety glasses Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin and body protection

Complete suit protecting against chemicals, Flame retardant antistatic protective clothing, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Hygiene measures

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form Melting point/freezing point Flash point Auto-ignition temperature Upper explosion limit Density Relative vapor density Odor Threshold Partition coefficient: n-octanol/water solid no data available pH Boiling point Ignition temperature Lower explosion limit Vapor pressure Water solubility Odor Evaporation rate Flammability (solid, gas) no data available The substance is a flammable solid w/the category 2.

10. STABILITY AND REACTIVITY

Chemical stability
Stable under recommended storage conditions.
Possibility of hazardous reactions
no data available
Conditions to avoid
Heat, flames and sparks. Extremes of temperature and direct sunlight.
Materials to avoid
Strong oxidizing agents, acids, Halogens
Hazardous decomposition products
Hazardous decomposition products
no data available

11. TOXICOLOGICAL INFORMATION

Acute toxicity Oral LD50 no data available Inhalation LC50 no data available Dermal LD50 no data available Other information on acute toxicity no data available

Skin corrosion/irritation no data available Serious eye damage/eye irritation no data available Respiratory or skin sensitization no data available Germ cell mutagenicity no data available Carcinogenicity IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH. NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP. OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. **Reproductive toxicity** no data available Teratogenicity no data available Specific target organ toxicity - single exposure (Globally Harmonized System) no data available Specific target organ toxicity - repeated exposure (Globally Harmonized System) no data available Aspiration hazard no data available Potential health effects Inhalation May be fatal if inhaled. May cause respiratory tract irritation. Ingestion Toxic if swallowed. Skin May be harmful if absorbed through skin. May cause skin irritation. Eves May cause eye irritation. Signs and Symptoms of Exposure Carbonyl compounds are toxic due to decomposition yielding carbon monoxide, pink urine, blood in feces (black stool), asphyxia, unconsciousness. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Synergistic effects no data available Additional Information RTECS: Not available

12. ECOLOGICAL INFORMATION

Toxicity no data available Bioaccumulative potential no data available PBT and vPvB assessment no data available Persistence and degradability no data available Mobility in soil no data available Other adverse effects no data available

13. DISPOSAL CONSIDERATIONS

Product

Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

Contaminated packaging

Dispose of as unused product.

14. TRANSPORT INFORMATION

DOT (US)

UN number: 2930 Class: 6.1 (4.1) Packing group: II Proper shipping name: Toxic solids, flammable, organic, n.o.s.
